

PDC IBC LINER BAG

DATA SHEET

PDC IBC LINER BAG

HengXin independently designs 1 000L liner bags to work with Intermediate Bulk Container Tank (IBC Tank), paper IBC and folding plastic/steel crates, makes them recyclable. This liner bag is composed of high-toughness double-layer or triple-layer PE film, gives customers confidence that the IBC Tank is always clean every time, no worries about contamination from one product batch to another.

PDC

ADVANTAGES

► Extensive Used

IBC liner bag is applicable to most of the liquid IBC packaging products, from plastic IBC tank to paper IBC, steel crates and so on.

► Efficiency

Easy to be operated, one staff could install the liner bag in one IBC in only 2-3 mins, saving human cost & improve efficient.

► Economical

Light in weight and foldable without security sacrificed, saving transportation and storage cost.

► Environmentally Friendly

IBC liner bag is single used, no need to clean the residual cargo before next loading, reducing resource wastage, achieve environmental protection.

APPLICATIONS

DRINKS

OILS

CHEMICALS

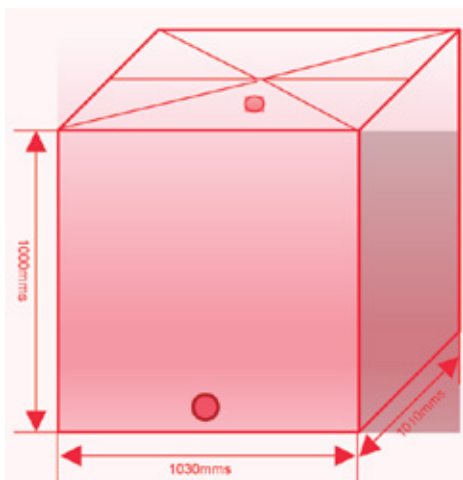

FOOD LIQUID & ADDITIVES

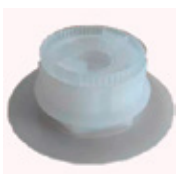

PDC IBC LINER BAG 2-3 LAYERS

Both 3 layers & 2 layers design apply to Paper IBC & Turnover Tank
